

The Oil World.

An Independent Weekly

Devoted to Oil Industry

Vol. 2. No. 47.

LOUISVILLE, KY.—APRIL 19, 1919.—LEXINGTON, KY.

Price \$3.00 per year, 10 cents per copy.

Oil Companies Active In All Fields of State

So Reports Have it From Louisville Where Many Companies Now Have Offices.

LOUISVILLE, Ky., April 18.—A meeting of the directors of the Paragon Oil Company was held in the offices of the company, in Louisville, recently, and at that meeting it was decided to make the following purchase: The entire holdings of the Good Luck Oil Company, located in Allen county, comprising 60 acres, next to the Frost pool, on which there are now 12 wells, 7 of which are pumping, and the other 5 are ready to attach to the power at once. The purchase includes full equipment, 4 wooden tanks, of 100 barrels capacity each, one steel tank, of 600 barrels, and an excellent power plant. There are 12 other locations on this lease.

The Paragon Oil Company now has all told 16 producing wells, with 5 others drilling and in course of completion.

The Union Oil & Royalties Company, of Louisville, has purchased a one-eighth royalty in the L. W. Nichols farm of 127 acres, located in Allen county. This lease is operated by Snowden Bros. Three wells are now in, reported good for 40 to 50 barrels each, and two more now drilling. The whole lease will be drilled up rapidly. It is understood the consideration was \$15,000 cash.

Recent visitors to the offices of THE OIL WORLD in Louisville, were: Chas. T. Maple, of Irvine, Ky.; Victor D. Hardy, of Lexington, Ky.; Hon. R. A. Chiles, of Mt. Sterling, Ky., and Mr. Paul M. Wade, of New York. Mr. Wade has become associated with Mr. F. W. Davis in the oil business, and will make his Kentucky headquarters at Winchester, Ky.

The Kentucky Oil & Royalty Company recently held a meeting of its stockholders in Louisville. The company had already purchased 30 acres of the Graves lease in Allen county, with one well on same. At the meeting the balance of this lease, consisting of 48 acres, was purchased. The lease adjoins production. Also the Johnson lease, in Allen county, of 32½ acres, near the big Barlow well, was acquired. The Kentucky Oil & Royalty Company has let contract for two wells, drilling to commence at once.

The Stanton Oil Company has purchased 9,000 acres in the famous Ranger oil fields of Texas. The majority of this acreage is between the Carey oil wells, and the Norwood oil wells. The Carey and the Norwood wells, it is reported, are now producing 12,000 barrels daily. Mr. F. A. Dwyer, of the New York office of the Stanton Company, is on the ground, and drilling will commence at once.

The Swan Oil and Gas Company has been incorporated, capital stock \$100,000, par value of shares, \$10.00, and no stock for sale. The company's Chicago office is at No. 1954 W. 69th St., and the Kentucky office is located at Maysville. The president of the company is Senator Percival G. Baldwin, who is also treasurer; vice-president, Mr. R. C. Schultz, and the secretary, Mr. G. W. Ginter. These gentlemen also constitute the board of directors.

The Swan Oil and Gas Company has under lease in Lewis County, Ky., 1,600 acres near the holdings of the Ohio Cities Co. and the Cabin Creek Oil Company, and will start drilling within 30 days.

Mr. Edward W. Hedrick, of Winchester, Ky., was in Louisville recently, and "all smiles." Mr. Hedrick with his charming bride were on their bridal trip, and will visit several cities before returning, including Chicago. Mr. Hedrick is a director in the Koma Oil Company.

A meeting of the Directors of the Pyramid Oil Company was held in Louisville, April 15th. A dividend of 5 per cent was declared on all stock of record as of April 18th, this dividend to be paid on April 25th. The company has sold within the past 30 days over \$100,000 worth of oil net to the Pyramid. It will be seen, therefore, that on the outstanding stock, in round numbers about 900,000 shares, that a dividend of 10 per cent could have

been declared. It is the policy of the company to build up a large surplus, therefore 5 per cent was declared. It is reported that 5 per cent will be paid in May, and a like amount in June, then after that time a dividend of 5 per cent or more per month, will be paid, probably quarterly.

Effective April 25th, the records of the Pyramid Company will be kept in Winchester, Ky., and the stock will be transferred there. A fee of 25 cents for each certificate transferred is now in effect. The office of the treasurer, Mr. V. J. Bulleit, will remain in Louisville.

The McMahon Company has opened offices at No. 605 Inter-Southern building, Louisville. The capital stock is \$10,000, par value of shares \$10.00, and no stock for sale. The officers of the McMahon company, incorporated, are: C. A. Phelps, president; W. Kirkpatrick, vice-president; M. B. Gorsuch, vice-president; Jarvis L. McMahon, secretary; Haviland Gilbert, assistant secretary; and Jacob Weinstein, treasurer.

The McMahon Company has holdings of 1,642 acres, located in the counties of Allen, Warren and Barren. The company, at present, is confining its operations to Allen county, where it now has a weekly production of 200 barrels, there being 8 producers in; four rigs are at work at the present time, and two more will be added within 30 days.

The Duplex Oil Company, with offices in the Republic building, Louisville, announces that it will sell a small allotment of stock at 75 cents per share, this to be used for purchasing production and for development purposes. Many predict that this stock will soon go to par, \$1.00.

Mr. A. O. Self, president of the Kytex Oil Company, with offices in the Starks building, Louisville, is in Texas on an inspection tour of the company's holdings in the famous Goose Creek gusher territory of the Lone Star State.

LEE COUNTY PRODUCTION.

The output of oil in Lee county is continually on the increase and while it is impossible to get at any exact information on just what is being run it is known that all the pipe line companies are going their full capacity in addition to the large quantity being shipped out by railroad. The National Refining Company is sending out an enormous amount from their station at Belle Point each week, while the Aetna Refining Company in Louisville is handling a fair percentage of the Lee county production.

It is estimated that the A. & B. Pipe Line Company, which is supplying the Aetna, is sending about 15 barges or more a month down the Kentucky river to Louisville. These barges have a capacity of from 2,100 to 2,400 barrels each. In addition this company is sending large shipments by rail.

The Cumberland Pipe Line Company is taking out over 100,000 barrels weekly and is running the largest percentage of the Kentucky oil by far.

Tennessee.

There is an abiding faith that oil exists in Robertson county in paying quantities. In support of that faith every resource is going to be exhausted in a master endeavor to locate the oil beds and develop it into a great commercial interest.

The county has been overrun with geologists the past several weeks. Oil leases are said to cover the land like a blanket. Indications are undoubtedly strong and interest runs high. The situation is beginning to grow into mild excitement over the attraction drawn in this direction. Millionaire oil magnates, at first looked on with curiosity, are now becoming commonplace hereabouts.

Active preparations are being made to begin drilling wells. The bottom is going to be reached this time unless it is struck first. Machinery and drilling outfits are ordered and on the way here. They are expected to arrive any day.

The Aetna Refining Company, located at Louisville, is taking oil from the A. & B. Pipe Line Company. It is estimated about 15 or more barges a month go down the river to this refinery. Each barge has a capacity of from 2,100 to 2,400 barrels. In addition the company is getting large shipments by rail.

HISTORY OF LARGE OIL DEAL IN ALLEN

Leases Selling Rapidly and Several Fine Wells Reported.—Other Oil News.

(I. P. Lord)

SCOTTSVILLE, KY., April 17.—A story of the largest sale of an oil property in western Kentucky may be of interest to your readers.

In 1917 James O. Hamilton, an oil man from Bryant, Ind., while on a visit to the Allen county field, met A. H. Jacobstein, who represented the Long Creek Oil Company, then drilling south of Scottsville. The two men formed a partnership for the handling of oil supplies at Scottsville.

Some time later they bought the lease on the Jim Reed Johnson farm, 1 mile west of Gainsville, from Blond Oliver and two other natives of Scottsville, for \$125 per acre.

In October, 1917, Bill Christian started drilling the wildcat well that later made famous the Gainesville pool. This is the No. 1 well on the Susan Moore farm, and was completed in November, 1917, at 260 feet, a sore disappointment to all concerned, as it came in flowing salt water. Christian ordered the drillers to pull the casing and plug the hole, but greatly to their surprise when reaching the rig there was the old flowing down the creek. This well caused Hamilton and Jacobstein to form a company composed of investors from Indiana and themselves, the company being known as the J. O. Hamilton Oil Company, of Scottsville, and they started No. 1 on the Johnson lease, 33 offset to the Moore well. This well also came in flowing and at a depth of 250 feet. Closely following, No. 2 was drilled in at 324 feet, the biggest well in western Kentucky, and flowed a 1,000-barrel tank full in 32 hours. No. 3 came in at 310 feet, 50 barrels. No. 4 at 254 feet, a gasser. No. 5 at 440 feet, was 15 barrels. No. 6 at 405 feet, 200 barrels. No. 7 was dry. No. 8, at 452 feet, was 15 barrels. No. 9, at 410 feet, was 10 barrels. No. 10 was a gasser; No. 11, at 400 feet, was 10 barrels. No. 12 at 378 feet, was 25 barrels. No. 13 is 50 barrels and No. 14 a duster.

The gas from these wells more than furnishes all of the fuel for operations on the lease and the residence of J. R. Johnson. The American pipe line to Bowling Green has been inadequate to handle the production from this lease.

This property was recently purchased by a company represented by Shay and Rogers, of Indianapolis, for the sum of \$600,000, a most creditable finish of 16 months operation.

Hamilton and Jacobstein are heavily interested in operations, having 7 drills at work in Allen county at the present time.

The field south of Scottsville for a distance of 10 miles is coming into its own after several months of inactivity last summer, owing to the interest of the field centering in the Gainesville pool and all of the rigs excepting three being moved to the northern part of the county. Three operators stood steadfast in the southern field and kept from one to three drills going all of the time during the summer of 1918. These were Captain Mahon, the Bertram Development Company, of Indianapolis, and the Oklahoma Producing and Refining Company, of Tulsa, the latter company during the past season have completed 13 wells on the Hooten lease in the Dalton pool. Capt. Mahon has drilled in, since the spring of 1918, 20 wells and four dry holes south of Scottsville, and has at the present time five machines at work in the southern field.

Bruce Bertram has two rigs at work at the present time and has completed 9 wells, 3 dry holes and a gasser. He is now drilling up the George Tucker lease, 8½ miles south of Scottsville, where he has 5 fine wells, equipped with tanks, also a St. Mary oil-burning engine and a St. Mary power of sufficient capacity to pull 20 wells. This lease is being rigged up equal to the best in the field. A pipe line will be built this week to Petroleum, connecting with his Ogles lease south of Petroleum, on the way where he has four wells.

Captain Mahon, Jack Wells and associates, of Duluth, have 9 wells on the Wm. McReynolds lease and no dry holes. These wells are all pumping. No. 7, completed at 300 feet, has been pumping for three months and is making 30 barrels; No. 9 is a bigger well than No. 7. This company owns its own pipe line to the loading station and are getting the top price for their oil.

The State Line Oil Company have 6 wells on the Widow Martin lease, four miles south of Scottsville. These wells

(Continued on Page Five.)

OIL WORLD OPENS OFFICE AT WINCHESTER

The Bachelor's Oil Company Organized.—Lee County Royalty Brings Good Price.

WINCHESTER, KY., April 18.—

The Bachelor's Oil Company has just been organized in this city and has filed articles of incorporation in Frankfort. The capital stock of this concern is placed at \$1,000,000, incorporators, C. W. Veitch, Charles Evelyn and Sam Woodbridge.

The Bachelor's Oil Company owns the Sally Davis tract of 400 acres between Hell Creek and Big Sinking in Lee county. This lease adjoins the Eureka tract and now has five producing wells with another expected in shortly. In addition to the Lee county property this company owns 9,000 acres in Allen and Barren counties, near proven property and are planning to move two rigs on at once to develop this acreage.

George W. Owens, president of the Great Lakes Petroleum Company, has just purchased, subject to title, a 1-72 royalty in the Wells heirs tract of 1,500 acres in Lee county for a price said to be around \$50,000. The purchase was made from the Ponder heirs, several of whom reside in this city. The tract in question is now being operated by the Petroleum Exploration Company and has a number of nice wells on it.

F. L. Stuart has taken the position of superintendent for the National Refining Company which was recently given up by George H. Dimick in order to take over the presidency of the Duplex Oil Company. Mr. Stuart is from Casey, Illinois. Some months later the offices of the company will be moved from this city to Beattyville.

J. S. Petot, of Louisville, connected with the American Pipe Line Company, has assumed the position of office superintendent and auditor for the Pyramid and Rex Oil Companies. He will be joined by his family shortly and will reside in this city.

The new office of THE OIL WORLD has been opened in the Winchester Oil and Stock Exchange next to the Brown Proctoria Hotel. The convenient locality makes it very easy to transact any business with THE OIL WORLD and give any news to the local correspondent.

The Duplex Oil Company has sold its entire allotment of 50 per cent. stock and which was oversubscribed to the extent of about \$17,000.

PIPE LINE RUNS

The pipe line runs from the Kentucky oil fields for the week ending April 12, as furnished by the Cumberland Pipe Line Company, are as follows:

District	Runs
1a Fallsburg	1,020.01
2 Cooper	642.50
3 Denny	49.60
5 Stubbenville	758.88
6 Cannel City	167.18
7 Fitchburg	9,150.56
8 Ravenna	6,441.26
8a Ravenna	4,146.28
9 Hazel Green	134.36
10 Campton	505.51
10 Wagersville	181.80
11 Beaver Creek	85.56
12 Ragland	88.95
13 Parmleyville	883.77
14 Pilot	6,990.31
15 Pilot	5,150.80
16 Zachariah	1,545.21
16a Big Sinking	18,394.50
16b Big Sinking	9,255.17
17 Ross Creek	5,491.34
18 Big Sinking	21,115.44
18a Big Sinking	9,472.00
18b Big Sinking	13,073.90
20 Hell Creek	882.50
Total	117,319.33

INDIAN PIPE LINE RUNS.

The pipe line runs of the Indian Refining Company in the State of Kentucky during the month of March, 1919, were as follows:

Estill and Lee counties	37,060.46
Allen County	33,172.40
Total	70,232.86

Elliott County.

Caldwell and others, of Nashville, Tennessee, have drilled into a nice flow of gas in the corniferous on the Brit Fraley tract on Newcombe Creek near here. They got the gas at 1,400 feet.

Sixty-four Completions Reported This Week

Marked Activity Noted in all Fields With Many New Rigs Being Erected.

As an evidence of the great activity in the Kentucky oil fields, sixty-four new wells were reported this week, as follows: Thirty in Lee; fourteen in Estill; four in Morgan; two in Lincoln; one in Lawrence; four in Wolfe; one in Wayne, and eight in Allen.

Drillers are in great demand and every day new locations are made and the fields are dotted with rigs working away night and day.

Lee County.

Frye-Sweetser Oil Co., No. 26, Eureka farm, 100 barrels.

Southern Security Co., No. 2, Roberts farm, 75 barrels.

Security P. & R., No. 10 and 11, Beattyville Mineral farm, 20 barrels each.

Security P. & R., No. 2, Ed Riley farm, 5 barrels.

Hart Oil Co., No. 5, the "Strip," 150 barrels.

Associated Producers Co., No. 13, Annie Fisher farm, 150 barrels.

Pyramid Oil Co., No. 4, Flat Hollow Pendergrass farm, 100 barrels.

Pyramid Oil Co., No. 2, Flat Hollow Pendergrass farm, 175 barrels.

Pyramid Oil Co., No. 8, Callie Brandenburg farm, 150 barrels.

Central Oil Co., No. 1, Pendergrass farm, 150 barrels.

Cumberland Pet. Co., No. 10, Sparks farm, 150 barrels.

Ohio Fuel Oil Co., No. 2, Smyth (Radical) farm, 25 barrels.

Atlanta Oil Co., No. 7, Henry Shoemaker farm, 10 barrels.

Brenner & Adams Co., No. 5, Day Lumber Co. farm, 25 barrels.

Bald Rock Oil Co., No. 4, Pendergrass farm, 100 barrels.

Pet. Exploration, No. 123, Wells heirs, 25 barrels.

Pet. Exploration, No. 236, Wells heirs, 25 barrels.

Pyramid Oil Co., No. 7, North Pendergrass farm, 200 barrels.

Cumberland Pet. Co., No. 10, Sparks farm, 150 barrels.

Central Oil Co., No. 1, Pendergrass farm, 150 barrels.

W. P. Williams Oil Co., No. 15, D. B. Pendergrass farm, 150 barrels.

Columbia Oil Co., No. 7, E. S. Moore farm, 30 barrels.

Central Oil Co., No. 5, W. T. Booth farm, 40 barrels.

Nowell and others, No. 1, Dave Gilbert farm, 150 barrels.

Pet. Exploration, No. 238, Wells heirs farm, 25 barrels.

Akers Oil Co., No. 19, Akers farm, 150 barrels.

Wright Oil Co., No. 6, Clay and Chiles farm, 150 barrels.

W. P. Williams, No. 16, D. B. Pendergrass farm, 175 barrels.

J. T. McMinn, contractor, reports that No. 2 on the Pendergrass lease of the Central Oil Company, is down 500 feet and is expected in by the last of next week. No. 1 on this same lease was drilled and put to pumping in 20 days from the time the machine was moved on the location. It finished up 1,203 feet deep, and is making 150 barrels of oil per day. No. 6, W. T. Booth, Big Sinking district, operated by the same company, is down about 300 feet and is expected in about the same time as the No. 2 Pendergrass. No. 8 McKinney, on Ross Creek, also operated by the Central Oil Company, is due in Tuesday. The company is moving a standard rig on the Lafayette Noe on Sinking to sink an initial test. This lease originally had 8 acres in it, and Nowell and Rogers own 42 acres of it and the Central Oil Company owns 42 acres. Nowell and Rogers have three wells on their half of the lease.

The Security Producing and Refining Company and the Trinity Oil and Gas Company are preparing to move a rig on to the No. 2 Beattyville Mineral and Timber tract where they will drill some offset wells to the Ohio Oil Company's Flahaven land tract.

Parties are moving a rig on to the John Howard farm, southeast of St. Helen's, where they will sink a test well.

The Flesher Petroleum Company has sold 400 acres of the Eureka tract to various parties in lots of 100 acres each for prices ranging from \$200 to \$350 an acre. The majority of these will be put into various companies now being organized.

The Wentworth Oil Company has spudded in for its fourth well on the Gourley, Sutton, Harris farm.

Parties are now preparing to sink a test on the C. B. Hieronymous near

Johnsonville, in Lee county, and are moving on. This is the same lease where Carl K. Dresser got a dry hole last year. The Hieronymous adjoins the farm of Colonel Thomas Johnson, where a producer was drilled in about 15 years ago. Oil, at that time, was selling for 60 cents a barrel and facilities for getting it out were so poor that the well was abandoned.

The Kentucky Glycerine Company, of Wilmington Delaware, a subsidiary of the DuPont Powder Company, now has its factory at Fincastle ready and expects to open for business Monday.

On Hell Creek the Eastern Oil Company is drilling No. 7 on the Dan Fraley. The Hell Creek Oil Company is drilling No. 4, Miller heirs, and is due in the first of this week. The Southern Oil Company of Lee county is drilling a test on the Elbert King.

The Poole Oil Company, of Lexington, has just purchased 80 acres of the William Dickerson farm from Mr. Dickerson, for a price said to be about \$50,000 an acre. This tract lies south-west of the D. B. Kincaid farm of the Atlantic Oil Producing Company and runs to the river.

The Eagle Oil Company is drilling No. 1 on the Pinnacle lease and No. 1 on the Nannie Bowman. On the James Godfrey the Eagle and Poole Oil companies expect No. 1 this week.

The Retloc and Poole Oil companies, of Lexington, will drill in Monday on the Wheeler Maloney 8-acre tract.

The Regina Oil Company's No. 1 on the McGuire tract has filled up with salt water. The well will likely be abandoned and plugged.

The Rex Oil Company has just completed another well on the Harve Williams, which looks like a nice producer but has not been shot.

Wagon County. Lemon G. Neely, No. 18, B. heirs farm, 5 barrels.

Estill County.

Victory Oil Co., No. 1, Jim man farm, 30 barrels.

Arrowhead Oil Co., No. 9, Profit farm, 30 barrels.

Arrowhead Oil Co., No. 10, Profit farm, 75 barrels.

Ky. Star Oil Co., No. 1, Comet lots, 2 barrels.

Bourbon Oil & Dev. Co., No. 3, Comet lots, dry.

Lincoln Oil & Gas, No. 14, Millie Freeman farm, dry; No. 13, 20 barrels; No. 12, 20 barrels.

Majestic Oil Co., No. 4, Comet lots, 2 barrels.

Stephens Oil Co., No. 2, Comet lots, 2 barrels.

Duquesne Oil Co., No. 3, John Moore farm, dry.

Bourbon Oil Co., No. 3, Millie Freeman, 5 barrels.

Ohio Oil Co., No. 3, M. D. Rogers farm, 10 barrels.

Crown Oil Co., No. 17, Charles Cox farm, 5 barrels.

Young and Stevenson, drilling on the T. T. Roberts tract, east of Ross Creek, are due in with their test Saturday.

Lincoln County.

Pine Knob Oil Co., No. 1, Tabitha Martin farm, 12 barrels.

Macon's Gap Oil Co., No. 1, Tarry farm, 20 barrels.

The Pine Knob Oil & Gas Company drilled in on the Tabitha Martin farm last week, well No. 1, good for 12 barrels, according to driller's report. The cap rock was struck at a depth of 30 feet. When drilling operations ceased Monday they were only five feet in the sand. They expect to continue through the sand and no doubt will make a much better showing as they are still drilling in the "pay."

This drilling rig will offset the above mentioned well and continue shallow drilling, while two deep well machines are starting holes for the second sand.

Mr. George F. Sherman is at his location on the Pettus lease, some three miles out of Stanford, with his new 38 T. Star equipment, and will start drilling first of this week in earnest. All geologists who have been over the properties of the Pine Knob Company are very enthusiastic in their belief that the chances for a second pay in this section are as good as any locality in the State. Development work will be rushed as fast as possible, until a thorough test has been made in the lower formations.

The Mason's Gap Company reports a 20-barrel well on Terry No. 1. Their holdings are adjacent to the Pine Knob Company's properties on the north, west and south, and continued good production is expected from that locality.

—WRITE FOR ILLUSTRATED FOLDER—

**KENTUCKY-TENNESSEE
MARCH FIELD REPORT**

(Oil City Derrick)

During March there were 271 wells completed in Kentucky and Tennessee, with a new production of 9,247 barrels, 25 dry holes and 11 gas wells. This is an increase of 50 in completed wells, five dry holes and five gas wells, when compared with the February figures, although March shows a decline in new production of 531 barrels, due to many of the new wells for March being smaller in production than those for February.

In new work under way at the close of March there were 24 rigs up and 500 wells drilling in the two States, which is an increase of one in rigs up and four in drilling wells, or a net gain of five. The roads have been in such shape that it has almost been impossible to move machines over them, otherwise there would have been numerous more wells under way at the close of March.

DUPLEX OIL CO.

INCORPORATED

GEO. H. DIMICK, Jr., President
Louisville, Ky.

Par Value \$1.00 Per Share—Now Selling at Seventy-five (75) Cents

The manner in which the DUPLEX OIL COMPANY was organized inspires public confidence.

Our issue of 250,000 shares at 50 cents was far over-subscribed in one week from date of our announcement.

We will now sell 50,000 shares at 75 cents. Before this is sold we will have completed two wells, one on the Pendergrass lease in Lee County, and one on Collett lease in Ross Creek field. Our stock will advance to par in a few days. Buy now, while you can secure some at 75 cents.

The personnel of the DUPLEX OIL COMPANY is a safeguard and guarantee. The men back of this Company know the Oil Business! To build a successful Company, you must have successful, practical management, and in organizing the DUPLEX OIL COMPANY each man has been selected with the greatest possible care for the place he is to fill.

NOTE CAREFULLY WHO THESE MEN ARE:

George H. Dimick, of Huntington, W. Va., President of the DUPLEX OIL COMPANY, is also President of the Yolanda Oil Company, of Kentucky. Director of Keystone Gas Company, former Manager of Federal Oil Company and National Refining Company, which management he resigned from to become President of the DUPLEX OIL COMPANY. He has been an active producer for twenty-seven years and his ability as a producer is recognized by the largest companies. Mr. Dimick knows every feature of the producing business of oil and gas.

L. C. Young, of Lexington, Ky., First Vice President of the DUPLEX OIL COMPANY, is also Vice President and General Manager of the Pyramid Oil Company and Vice President of the Rex Oil Company. Mr. Young is well and favorably known as a man of high standing and integrity.

Eli Howell, of Winchester, Ky., Second Vice President of the DUPLEX OIL COMPANY, is also President of the Montezuma Oil Company, Vice President and General Manager of the Torrent Oil Company and stockholder in the Paramount Oil Company. Mr. Howell is known as a man of ability and integrity. The Paramount and Torrent Oil Companies are known as two of Kentucky's big producers and backed by well-known financiers.

John M. Hodgkin, of Winchester, Ky., Treasurer of the DUPLEX OIL COMPANY, is one of Kentucky's well-known Bankers. He is a Director in the Bonanza Oil Company and Peerless Oil Company and has large holdings in the oil field; Secretary and Treasurer of the Miller-Prewitt-Goff Land, Oil and Gas Company.

Thomas R. Reid, of El Reno, Oklahoma, Secretary of the DUPLEX OIL COMPANY, is a man well-known in Governmental affairs; ex-Speaker of Oklahoma House, and a prominent Attorney. Mr. Reid has moved to Louisville to assume his duties as Secretary of the DUPLEX OIL COMPANY.

DEVELOPMENT.

Our development will be pushed as rapidly as rigs can be secured and work started. No leases will be bought by the DUPLEX OIL COMPANY until passed on by our geologist and field men, and we will buy only those on which we feel sure, and absolutely sure, we will get good producers.

PRODUCTION.

The DUPLEX OIL COMPANY holds a contract for the purchase of certain properties in Ross Creek and Big Sinking fields on which there is now flush production of 250 barrels per day. On these properties there are now two rigs drilling and this production can be increased to 500 barrels per day in a short period. We will complete two wells this week.

STOCK OFFERING.

The DUPLEX OIL COMPANY will sell 50,000 shares of stock at seventy-five (75) cents, which money will be used for purchasing production and for development. You are sure of one thing in buying DUPLEX OIL Stock, and that is that you will be in one of Kentucky's largest and most successfully-managed Oil Companies, a Company which will, at all times, do that which we feel is to the best financial interest of all stockholders. Capable management is a guarantee of success in any business and the DUPLEX OIL COMPANY is organized of men known to practically every oil operator in this and other oil fields. We have no hesitancy in saying the issue at seventy-five (75) cents will be taken quickly and feel that this stock will go to par, or \$1.00 per share, in less than 10 days.

Get in while you can buy at the low price, for in every properly-managed company in Kentucky all stockholders have, and are now making money. We will make this one of, if not the largest oil companies in the State.

Address all communications to DUPLEX OIL COMPANY, Republic Building, eighth floor, Louisville, Ky. Make all checks for stock payable to DUPLEX OIL COMPANY.

Oil Royalties The 18% Gold Bonds of the Oil Industry

If you want an absolutely safe oil investment with great speculative possibilities, send for prospectus describing the holdings of the CONSOLIDATED OIL INVESTMENT CO.

Owning interests in the richest oil royalties in the great Butler Co., Kansas, and Burkburnett, Texas, pool.

Over 100 wells on this company's holdings now producing high-grade oil, with locations for nearly twice as many more wells being drilled.

Regular monthly dividends of 15% are now being paid. They should greatly increase in short time.

Send for our free book showing the wonderful chances for big, quick money in the new Texas fields. Address Dept. A.

According to the United States Department of Commerce, gasoline to the extent of 26,964,704 gallons, valued at \$6,373,862, was exported in February, 1919, which compares with 35,396,038 gallons, worth \$8,426,107, shipped in February, 1918. Other exports were: Illuminating oil, 64,679,339 gallons of a value of \$7,347,172, against 29,878,381 gallons worth \$3,262,420; lubricating oil, 29,627,360 gallons valued at \$9,476,195, compared with 17,797,037 gallons worth \$4,826,359; and 36,710,850 gallons of residue and fuel oil valued at \$1,825,621, which compares with 118,863,438 gallons worth \$6,511,336.

Statistics in reference to the refining of gasoline in the United States in 1918 show that refineries in that year used 326,024,630 barrels of crude oil, an increase of 10,892,942 barrels over that consumed by refineries in 1917. This amount of crude oil produced 85,000,000 barrels of gasoline, 32,461,000 barrels of kerosene, 174,316,000 barrels of gas and fuel oil, 2,349,000 barrels of lubricating oil, and 30,636,000 barrels of miscellaneous oils.

Notwithstanding the smaller demand from Europe for exports of gasoline, the amount refined has steadily increased, and refineries in this country have been forced to maintain a record production of gasoline and kerosene to meet the increased demand in this country and in other countries outside of Europe.

The receipts of crude petroleum during March by the pipe lines that from the wells of the Eastern division make regular monthly reports of their runs, amounted to 2,091,837 barrels. This was a gain in the total of 135,988 barrels over the February figures, but the daily average of 67,478 barrels shows a loss of 2,373 barrels as compared with the previous shorter month. At the same time the daily average for this report is larger than for any other month of March since 1912. The daily average for February was 69,851 barrels. For January it was 66,775 barrels; for December 66,850 barrels; November 63,472 barrels and for October, 69,464 barrels, which was the largest monthly average during 1918. Each pipe line with one exception, shows an increase in its receipts, the largest gains being reported by the Eureka and the Cumberland.

The regular deliveries by the Eastern lines during March amounted to 3,557,188 barrels, with a daily average of 114,748 barrels. The increase in the total of March was 521,072 barrels, and of over 6,000 barrels in the daily average. The deliveries were 1,200 barrels a day less than in March of last year.

Stocks held by the Eastern lines have been steadily increasing for the last four months, and those for March show a gain of 459,758 barrels over the February figures. The stocks of Pennsylvania grade increased 107,257 barrels; those of Lima, 24,489 barrels, and Kentucky, 2,076 barrels. The first quarter of the year shows an increase in the Eastern stocks of 1,145,659 barrels. Pennsylvania grade stocks have gained 294,609 barrels; Lima, 88,194 barrels, and Kentucky 62,237 barrels.

The usual number of good producers were reported from Kentucky this week. The western part of the State is becoming more attractive as the older locations in the eastern part are pretty well developed or under lease, and the shallow sands of the Scottsville district are drawing oil men to that section. The size of the wells is also a drawing card.

The feature of the week in trading in Kentucky oil securities has been the severe decline in the stock of DUQUESNE, this stock selling as low as 30 cents a share, a decline of 50 cents.

Practically all the FLESHER RIGHTS were taken up by the stockholders, and a substantial rise in the stock is anticipated.

KOMA is not in very active demand, bidding for same being considerably under par.

KENTUCKY STAR is actively traded in around 75 cents in anticipation of wells coming in within the next few days.

McCOMBS has been steady around last week's quotations.

PYRAMID has advanced approximately 40 cents a share on favorable earning statistics being given out to the public.

W. P. WILLIAMS is eagerly sought for around par.

WRIGHT showed some weakness, declining about 25 cents a share.

The cheap stocks, UTILITY, SURETY, SOUTHERN SECURITY and WYOMING-KENTUCKY have been traded in actively around last week's closing prices.

Sixty-four completions were reported for the week as follows: Thirty in Lee from 5 to 200 barrels; fourteen in Estill from 2 to 75 barrels, three dry; eight in Allen from 10 to 75 barrels, one dry and one gasser; four in Morgan, two dry, one 6 and one 50 barrels; two in Lincoln, 12 and 20 barrels; four in Wolfe from 2 to 30 barrels, one dry; one in Lawrence, 50 barrels, and one in Wayne, 5 barrels.

The pipe line runs for the week were 117,319.33 barrels.

Lewis County.

Lewis county is taking on more activity every day. The principal attraction seems to be the Ohio Cities Gas Company's big well. They are down 1200 feet and have struck a splendid showing of gas and some oil. They are working full time and averaging about 50 feet per day. The log of this well so far looks very promising.

W. G. Vaukirk, representing the United Fuel Co., is scouting the territory for leases. Also J. B. Johnson, advance man for the Clinton Oil & Gas Company, of Huntington, W. Va., is securing leases in Lewis county.

It is reported that the Columbia Oil & Gas Company have secured a large acreage in Lewis county, and expect to begin operations at an early date.

The Cabin Creek Oil & Gas Company have started drilling again after about two weeks shut down.

R. L. Ditto, geologist, who started all the noise in Lewis county, is confident that Lewis county will prove an oil and gas bearing territory and a satisfactory enterprise is now behind the movement.

The Cabin Creek Oil and Gas Company, of Maysville and Cincinnati, is down 405 feet at No. 1 on the Hendrickson farm in the Tollesboro district.

THE BELVEDERE OIL COMPANY

Offers, in blocks of 20 shares and over, a limited number of shares of 8% CUMULATIVE PREFERRED STOCK at par (\$5.00 per share) with bonus of 50% COMMON STOCK. This company owns over 3,000 acres of leases in Lincoln and Casey Counties, Kentucky, upon which are 10 PRODUCING WELLS and 1 GAS WELL (on Buck Creek Lincoln County, Ky.) PIPE line from property direct to Q. & C. R. R. 2 DRILLS are now being operated by company. Subscriptions allotted in the order in which they are received. Mail checks direct to the company.

THE BELVEDERE OIL COMPANY Department F. 1230 Munsey Bldg., Baltimore, Md. Richard W. Cook, President and General Manager.

They have encountered a showing of gas and oil. On Briar Fork of Indian Creek the Ohio Cities Gas Company is down 210 feet at their deep test on their 14,000 acres, owned in fee simple. They expect to go 3,000 feet and started with an 18-inch hole.

The Swan Oil and Gas Company, of Chicago and Birmingham, is moving on to Buck Lick to drill a test on 1,500

HISTORY OF LARGE OIL DEAL IN ALLEN

(Continued from Page One.)

were completed at from 260 feet to 310 feet. All of the wells are pumping and shipping about 250 barrels per day.

The Buckeye Oil and Royalty Company, of Ohio, have the most promising lease in the southern field today, if not in the county. 12 wells are in and no dry holes. These wells are from 220 to 125 feet deep and are making over 500 barrels per day. There are at this writing 28 drills in the field south of Scottsville and 15 rigs east of Scottsville.

A big gas well was struck Saturday on the Pearson farm, one-half mile west of Adolphus, and near the State line. This lease belongs to a company from St. Charles, Mo.

Mr. Powell, of the Producers Oil and Shale Company, reports the completion of a 10-barrel well on the village lot belonging to Bill Oglesby, a negro. This well showed the oil at 250 feet and was completed at 300. He is now drilling No. 2.

Sam Bradshaw and his brother caught a duster on the Hinton residence lot in the village.

Harry Schoonover, of the Snowden Brothers, reports No. 7 on the Wm. Foster completed at 375 feet, 30 feet under shale, and a 40-barrel well; No. 8 on the Foster at 370 feet, 30 feet under, and making 40 barrels; No. 8 on the Dot Oliver at 360 feet, 20 feet under, is a 75-barrel well. This lease is now proven the entire length.

Schoonover has 11 rigs at work in the Gainesville pool, two on the Nicholls, two on the Mack Hinton, one on the Tabor, one on the Dot Oliver, two on the Foster, two on the Yessie Oliver, one on the Ashbury Johnson, an offset to a well on the John Mottley, No. 6 on the Yessie Oliver completed at 422 feet is a 10-barrel well.

Dr. Riggs sold the 23-acre Tabor lease near the Sinking Spring school to Louisville parties for \$20,000. The doctor has bought the 250-acre lease on the Meredith farms joining the Angie Meredith lease, where the Range Oil Company have three fine wells. The price of the 250 acres was \$35 an acre, which we think was a bargain. He also bought the 400-acre lease on the P. W. Dodson farm, just to the west of Scottsville. This lease is one-half mile from the big well on the Barlow farm. The doctor's invasion of the field south of Scottsville gives assurance of the importance now being attached to the southern part of Allen county for the doctor is a developer.

The big well on the Barlow farm is on the pump and is making fine production. The gas flow is strong and its the impression of some oil men that this well properly equipped would flow.

Work has commenced on the hotel and it is to be hoped that the contractors will push it as there is a great need of a modern stopping-place in this field.

Barren County.

Interest in Barren and Allen county drilling continues to be on the increase and the small percentage of dry holes, which has been estimated at 10 per cent., is proving very attractive. There is much excitement and this section looms up as the bright spot in Kentucky this summer.

The Roselle Oil Company, capitalized at \$50,000, and recently organized in Louisville, bought the B. R. Edwards tract of 50 acres in Barren county from L. M. Thompson for a price said to be \$30,000 an acre and is now moving on to drill a test well. The acreage is one mile west of the Dinlock well, which came in flowing some time ago and has been estimated as high as 500 barrels. This company owns a valuable lease in Allen county, south of Scottsville, and will develop this shortly.

ALLEN COUNTY

IS NOT COMING, BUT HAS ARRIVED IN THE CLASS OF LARGE PRODUCING WELLS. THE WELL ON BARLOW LEASE ADJOINING OUR CHISM-JACKSON HOLDINGS OF 98 ACRES, IS A BIG ONE AND WAS REPORTED GOOD FOR OVER THREE HUNDRED BARRELS DAILY WHEN BROUGHT IN ABOUT ONE WEEK AGO AT A DEPTH OF APPROXIMATELY THREE HUNDRED FEET.

The Famous Angie McReynolds Lease Lies About One Mile to the South- west of Our 98 Acres.

WE ARE RIGHT ON THE LINE OF OIL. PROVEN PROPERTY ADJOINS US ON THREE SIDES. WE COULD SELL OUR LEASE FOR A HANDSOME SUM BUT WE ARE GOING TO DRILL IT AT ONCE AND WE WANT AN IMMEDIATE RESPONSE TO THIS OFFERING OF A FEW THOUSAND DOLLARS WITH WHICH TO CARRY ON DEVELOPMENT AND PUT DOWN TWO OR THREE WELLS WITHIN THE NEXT THIRTY DAYS. ONE WELL ON THIS LEASE AS BIG AS THOSE NEARBY WILL ENHANCE THE VALUE OF THE COMPANY'S HOLDINGS MANY TIMES OVER AND MAKE EVERY DOLLAR OF OUR OUTSTANDING STOCK WORTH CLOSE TO A DOLLAR A SHARE. OUR FIRST WELL IS BEING PUMPED DAILY AND WE ARE DOWN ONE HUNDRED AND THIRTY-ONE FEET WITH OUR SECOND WELL, AND AS SOON AS THIS SECOND WELL IS COMPLETED, WHICH SHOULD BE THE LAST OF THIS WEEK, WE INTEND TO MOVE OUR RIG OVER ON THE JACKSON-CHISM LEASE.

Property Near Us Sold at Public Auction Last Saturday For \$2,500 Per Acre.

FILL OUT THE COUPON AND MAIL US YOUR CHECK.

MASTER COMMISSIONER'S SALE

OF OIL AND GAS WELLS, LEASES, MATERIAL AND
SUPPLIES IN ELLIOTT COUNTY, KENTUCKY.

Under and by virtue of a judgment of the Elliott Circuit
Court, rendered in the action of A. L. Romine, W. E. Kellerman,
and Paris Moore vs. Rice Oil Company, the undersigned Master
Commissioner of said Court will sell at public auction to the
highest and best bidder at the Court House door at Sandy Hook,
Elliott County, Kentucky, at the hour of three o'clock, on

MONDAY, MAY 5th, 1919

the following described property of the Rice Oil Company, locat-
ed near Isonville, in Elliott County, and more fully
described as follows, to-wit:

NO. 1—VESS PETERS OIL WELL TRACT.

That certain oil and gas lease dated May 18th, 1917, by Vess
Peters and Pearl Peters, his wife, of Isonville, Ky., recorded in
Book 10, Page 86, Elliott County records, to which reference is
hereby made, containing 150 acres, more or less, on the waters of
Newcombe Creek in Elliott County, Kentucky, and including the
OIL WELL thereon, and all of the casing, tubing, rods and other
appliances and appurtenances therein and thereon, and all of the
tanks, derricks, fixtures, pumps, engines, tools, appliances and
attachments used in connection with and forming a part thereof.

NO. 2—J. F. DIALS GAS WELL TRACT.

That certain oil and gas lease dated April 6th, 1917, by J.
F. Dials and Alice Dials, of Isonville, Ky., recorded in Book 9,
Page 442, Elliott County records, to which reference is hereby
made, containing 150 acres, more or less, on the waters of New-
combe Creek in Elliott County, Kentucky, including the GAS
WELL thereon, and all of the casing, tubing, rods and other ap-
pliances and appurtenances therein and thereon, and all tanks,
derricks, fixtures, pumps, engines, tools, appliances and attach-
ments used in connection with and forming a part thereof.

NO. 3—C. W. BAILEY UNDEVELOPED TRACT.

That certain oil and gas lease dated April 19th, 1917, by C.
W. Bailey and Sarah Bailey, his wife, of Isonville, Ky., recorded
in Book 3, Page 269, Elliott County records, to which reference
is hereby made, containing 300 acres, more or less, on the waters
of Newcombe Creek in Elliott County, Kentucky.

NO. 4—J. W. FANNIN UNDEVELOPED TRACT.

That certain oil and gas lease dated April 26th, 1917, by J.
W. Fannin and Bertha Fannin, his wife, of Isonville, Ky., re-
corded in Book 10, Page 90, Elliott County records, to which
reference is hereby made, containing 50 acres, more or less, on
the waters of Newcombe Creek in Elliott County, Kentucky.

NO. 5—GALE PETERS UNDEVELOPED TRACT.

That certain oil and gas lease dated April 24th, 1917, by Gale
Peters, of Isonville, Ky., recorded in Book 10, Page 78, Elliott
County records, to which reference is hereby made, containing
100 acres, more or less, on the waters of Newcombe Creek in
Elliott County, Kentucky.

NO. 6—S. J. PETERS UNDEVELOPED TRACT.

That certain oil and gas lease dated April 8th, 1917, by S.
J. Peters and Mary Peters, his wife, of Isonville, Ky., recorded
in Book 10, Page 82, Elliott County records, to which reference
is hereby made, containing 175 acres, more or less, on the waters
of Newcombe Creek in Elliott County, Kentucky.

NO. 7—ANDERSON ISON UNDEVELOPED TRACT.

That certain oil and gas lease dated April 25th, 1917, by
Anderson Ison, of Isonville, Ky., recorded in Book 10, Page 74,
to which reference is hereby made, containing 200 acres, more
or less, on the waters of Newcombe Creek in Elliott County, Ky.

NO. 8—O. W. GILLUM UNDEVELOPED TRACT.

That certain oil and gas lease dated April 24th, 1917, by O.
W. Gillum and Jaley Gillum, his wife, of Isonville, Ky., record-
ed in Book 10, Page 70, to which reference is hereby made, con-
taining 50 acres, more or less, on the waters of Newcombe Creek
in Elliott County, Kentucky.

OIL WELL MATERIAL ON WALKER LEWIS LEASE.

Also the uncompleted well on the Walker Lewis farm, in-
cluding all of the casing, tubing, rods and other appliances and
appurtenances therein and thereon, and all of the tanks, derricks,
fixtures, pumps, engines, tools, appliances and attachments used
in connection with and forming a part thereof.

CASING ON FULTON FARM.

Also a miscellaneous lot of oil and gas well casings on the
Robert Fulton farm.

Said property shall be sold on a credit of six (6) months,
and the purchaser shall be required to execute bonds with good
surety for equal parts of the purchase money; and a lien shall be
retained on the property as additional security. A deposit of
\$100.00 shall be required under rule of court at the time of sale.
Privilege is given the purchaser to pay the purchase price in cash
without executing bond, or to pay the purchase money at any
time before maturity. Tracts one to eight, and the material on
the Walker Lewis farm and the casing on the Fulton farm, will
first be offered for sale separately and then together as a whole,
and the Master Commissioner will accept the bid or bids from
which the most money may be realized.

The above described property will be sold for the purpose of
satisfying the existing indebtedness against the Rice Oil Com-
pany amounting to \$6,600.00.

This company has 17 producing wells, 11 on Ross Creek and 6 on Big Sinking, and is selling 250 to 300 barrels of oil per day. It has secured some very valuable acreage on Big Sinking and Ross Creek.

100,000 shares of its capital will be sold at par; the net proceeds from the sale of stock will be used conservatively for developing (drilling and equipping) the following leases: A part of the W. T. Booth lease on Big Sinking, adjoining Hudson & Collins, the Woodford Oil Co. and the Southwestern Petroleum Co.; a part of the Pendergrass farm between Cave's Fork and Bald Rock Fork on Big Sinking Creek. We have 5 wells now on the former and 1 on the latter, and one drilling on each of them, and we want to move one more machine on the Booth right away. A contract has been let to commence a well on the LaFayette Noe of 42 acres adjoining the Russell-Hall-Burke farm, and the Mollie Lyons, which is operated by the Southwestern Petroleum Co. We will keep one machine at work on the Robert McKinney lease of 151 acres on Ross Creek. The proceeds from the sale of oil after paying operating expenses, such as pumper, lease hands, etc., will be used for paying dividends.

No bonus stock is outstanding or ever will be. The officers and directors have and will pay the same as every one else for their stock and no extravagant commissions will be paid to any one to sell any of the stock in this company. As this company has 20 proven locations to drill on Big Sinking alone, this summer, and as only a limited amount of this stock will be sold at this price, it should prove an attractive investment to all investors.

Make checks payable to J. L. Gaugh, Treasurer, and mail them to the undersigned or call in person and I will be glad to go into the proposition fully.

Drilling in the Famous Gusher Territory of Goose Creek, Texas

We have two tracts in this territory, one of them we own in fee, and our holdings are large as compared to some other companies in the field there.

We are on our first deep well. Wells come in in this field making as high as 15,000 barrels daily; some of them have come in close to our property, one within 250 feet, making about 10,000 barrels.

WE BELIEVE OUR CHANCES ARE GOOD FOR BIG WELLS, and we have started our first deep well, with the intention of going to the 3,400-foot sand, at which depth the largest wells are brought in.

GET IN WHILE YOU CAN.

The Kytex Oil Company has small capital, and offers tremendously big opportunities. The unsold portion of our stock is offered, subject to advance in price, or withdrawal from the market entirely.

Call us up, or come to see us, or drop a line, and we will give you full particulars, and introduce you to people right here in Kentucky, who, after seeing our Goose Creek property, then bought.

CHRISTIAN COUNTY LEASES FOR SALE

I have several thousand acres of leases in the northern part of Christian County, where there are now several wells being drilled. Will sell a part of them at \$1.00

per acre and would take part payment in stock of a live company.

Leases have 3½ years to run, 10 cents per year rental, not due for six months. Address

HUGH WEST

HOPKINSVILLE, KENTUCKY

U. S. REFINERIES ARE AHEAD OF OUTPUT

Oil refining capacity in the United States exceeds the output of crude oil. Refineries of the country are capable of handling 1,295,115 barrels of oil daily, while the crude production is only 900,000 barrels daily.

Oil refineries in this country have a refining capacity of 1,295,115 barrels of crude oil a day, according to figures compiled by the Bureau of Mines. This is largely in excess of the production of oil in this country which, in 1918, amounted to 341,000,000 barrels, or about 900,000 barrels a day.

California leads all other states in refining capacity, being able to handle 280,000 barrels of crude daily in its 37 refineries. Oklahoma is second with a capacity of 233,000 barrels daily among 79 refineries. Figures for Oklahoma show the oil industry in that state is in a highly competitive condition. Numerous small refineries were built there following the discovery of large quantities of oil several years ago, and the fortune of these refineries is exceedingly sensitive to changes in oil trade conditions.

The refining industry in Texas is in a more centralized position, the 26 refineries of that state having a capacity of 212,000 barrels of oil a day.

The four refineries in New Jersey, located in and around Bayonne, owned by the Standard Oil and Tide Water, have a capacity of 100,000 barrels a day.

There are in the United States 289 refineries with a daily capacity of 1,295,115 barrels.

Announcement

THE Paragon Oil Company

Desires to announce the purchase of the holdings of the Good Luck Oil Company in Allen County, consisting of a 60-acre lease on which there are 12 wells—7 of which are pumping and the other 5 are fully rigged up and will go on the power within the next few days.

The lease is splendidly equipped with four 100-barrel tanks, one 100 and one 600-barrel steel tank, all necessary cables, pipes, rods and one of the very best, if not the best, power plants in the county.

In addition, there are 2 other wells nearing completion and 12 more locations for drilling on the lease.

NOT A SINGLE DRY HOLE HAS BEEN DRILLED ON THIS PROPERTY

This, together with the four wells on the Charlie Oliver farm, owned by the company, gives us 16 producing wells, fully rigged up with prospects good for four more by May 1.

The PARAGON is one month old, and in some respects its record of achievement is without a parallel in the history of the oil business in Kentucky, and the management is justly proud of its record.

DIVIDENDS.

From the present outlook the company will be on a dividend-paying basis shortly after it is a month old—some record—don't you think?

In order to complete the payment on lease purchased this week the directors decided, at a meeting held Friday, to sell an additional 15,000 shares of stock at ONE DOLLAR per share.
